

Who we are

Aqualapka offers more than just a premium drink; it's a symbol of pet health and well-being. It brings joy and energy to both pets and their owners, who want the best for their furry friends. We're proud to be the top choice among veterinarians and breeders, thanks to our products' safety, quality, and effectiveness, proven by specialized research.

"YOUR PET'S HEALTH IS OUR TOP PRIORITY"

- This is our motto and guiding principle that determines the direction of our brand's development.

Working with the best

Our manufacturing partner from Poland has been established since 1995. It was founded by specialists in the field of animal nutrition. The modern facility complies with the highest European Union and world standards, and works in accordance with all sanitary and veterinary laws.

The building consists of many large production halls filled with the high technology equipment, making sure the entire production meets all GMP and HACCP standards, where cleanliness and hygiene are of the utmost importance.

The "in house" laboratory unit hosts renowned professors, and experts in the field, all striving for the highest products quality and further product improvements.

Discover the power of innovative functional concentrates for dogs

Calming Concentrate

for dogs 100 ml

Calming Concentrate is designed to help your pet stay calm and balanced in any situation. A blend of natural oils - linseed, olive, and CBD oil supports overall well-being, while fish oil strengthens immunity and promotes joints health. This concentrate is perfect for reducing anxiety during trips, loud noises, or even vet visits.

Promotes skin and coat health (fish oil).

Supports metabolism and coat health (linseed oil).

Provides antioxidant benefits for the immune system (olive oil).

Helps reduce stress and anxiety (CBD oil).

Ingredients:

Fish oil, linseed oil, olive oil, CBD oil.

How to use:

Shake the bottle well before use. Add concentrate to water or wet dog food. Mix thoroughly and serve.

Serving Daily suggestion:

0.2 ml per 1 kg of dog's weight.

Storage:

Store in a closed original bottle in a dry, cool and dark place. After opening keep refrigerated and use within 45 days. Do not freeze.

Dental Concentrate

100 ml for dogs

Dental Concentrate is enriched with key vitamins D3, C, B6, and K3, along with chlorophyll and anise extract to freshen breath and promote oral health. Simply add it to your pet's drinking water for a hassle-free way to maintain dental hygiene.

Supports bone and dental health (Vitamin D3).

Strengthens the immune system and promotes gum health (Vitamin C).

Supports metabolism and nervous system (Vitamin B6).

Promotes healthy blood circulation and tissue healing (Vitamin K3).

Boosts the immune system and ensures fresh breath (chlorophyll).

Freshens breath and supports dental and gum health (anise extract).

Ingredients:

Filtered water, dextrose, fructose, vitamins D3, C, B6, K3, chlorophyll, anise oil.

How to use:

Shake the bottle well before use. Add concentrate to water or wet dog food. Mix thoroughly and serve.

Serving Daily suggestion:

1 ml per 1 kg of dog's weight.

Storage:

Store in a closed original bottle in a dry, cool and dark place. After opening keep refrigerated and use within 45 days. Do not freeze.
